

Lisec and Super Spacer[®] reduce production costs...

Glass Washing Machine

Automatic Super Spacer[®]
TSS[™] Application Machine

*Only Lisec,
the world's leading
manufacturer of I.G.
machinery, provides
you with the technology
and engineering
that can significantly
reduce your production
costs, increase your
production output
and improve your
I.G. unit quality.*

Glass Washing Machine

- Vertical to vertical glass handling
- Comfortable working height for greater productivity
- Stainless steel construction
- Electronic control of both glass transport and brush rotation speeds
- Automatic recognition and special program for soft coated glass
- 5 separate washing stages and 8 automatic brushes for superior cleaning performance
- Automatic loading optional

Automatic Super Spacer[®] TSS[™] Application Machine

- Fastest and most accurate automatic Super Spacer application available
- Consistent and reliable positioning of Super Spacer material
- Easy change over of spacer materials
- Newly developed LISEC automatic Super Spacer application technology
- Automatically applies Super Spacer to units as small as 7" x 14"
- Capable of both rectangle and shaped units

...and improve quality.

Automatic Combined
Gas Filling/Assembly Press

Sealing Robot

Automatic Combined Gas Filling/Assembly Press

- Fully automatic gas filling of double and triple insulating glass units
- Can accommodate unit thickness from .5 to 1.6"
- Capable of filling shaped and offset units
- Highest and most consistent gas fill rate
- Precise mixing/metering of Argon, Krypton, Xenon and SF6 gases

Sealing Robot

- High performance vertical sealing of insulating glass units
- Capable of sealing shaped and offset units automatically
- Handles all proven one-part and two-part warm and hot-melt sealants
- Precision electronic control for advanced sealing performance without voids
- No excess sealant waste

With every shift, you'll be saving with:

- Less labor, material and energy costs
- Reduced glass breakage
- Fast, efficient material flow
- Minimized product handling
- No equipment royalties
